

STORIES ALIVE PRESENTS...

# Captain Zak

## AND THE SPACE PIRATES

Captain Zak, Space Pirate, needs your help! He's lost in a broken-down spaceship and only with your help answering questions and solving puzzles, can we survive the bubble attack!

Zak worked as a delivery driver for the *Amazin* corporation, but turned pirate when he stole his delivery spaceship. Now he's lost in a far-flung galaxy with a ship that's falling apart and he needs your help to survive! Will you be able to work together and solve the puzzles? This interactive adventure is perfect for all lively small people and their grownups.

Eden Ballantyne is a historical storyteller and theatre performer. After years as an actor, live interpreter, street performer and children's entertainer, he has molded his skills to create an exciting new show, which will appeal to the preschoolers AND their parents.

By joining Captain Zak's crew, the audience will help Zak by identifying colours and mixes, shapes, and sizes, counting, directions and animal recognition, and with singing along with him and his faithful computer MEL to great songs.
